Plant Extension of MFS Technology Malaysia Sdn Bhd

MFS Technology Singapore Pte Ltd is pleased to announce that the Executive Council had approved its wholly-owned subsidiary, MFS Technology Malaysia Sdn Bhd, to design and construct a factory Extension (“Extension”) to meet the customers’ demand.

Construction of the Extension is scheduled to complete by early 2016 and it will increase the production capacity by 50%. With additional capital investment to purchase advanced equipment and improved process flow, it will position MFS Technology Malaysia as state-of-the-art manufacturing plant with superior quality.

Plant Overview

Factory Extension

- Complete by 2016
- 50% capacity Increase
